ប្រជាជនកម្ពុជា ២០១៧

ប្រជាជនកម្ពុជា ២០១៧

ប្រជាជន?

What is the name of the subject?

We are going to ask you questions related to malaria exposure. We are interested in the place you live and the measures you take to protect yourself from being bitten by mosquitoes.

We will also ask questions about past and ongoing medical treatments, and take a small blood sample to look for the presence of malaria parasites.

ប្រជាជនកម្ពុជា ២០១៧ / Trips outside the village

Here we are interested by knowing where the subject has been to during his trip(s) away from the village over the last month. For each trip outside of the village, we would like to know about the place where the subject has been and for how long he stayed there.

These questions are not related to the place where the subject usually work, as these will be asked later in the questionnaire.

☐ 数週間 (Several weeks (less than a month))
☐ 1ヶ月 (1 month)

□□□□□□□□□□□□□□ / **Work places**

We are now going to ask you questions about the places where you have been for work in the last two months.

For each place where you have visited, we will ask some details about how often you have been there and the protection measures you took to prevent malaria.

Did the subject go and work in any of these places in the last 2 months?

[Multiple answers possible]

- ☐ □□□□□□□□□□□□□□□□ (Nearby Forest)
- ☐ □□□□□□□□□ (Deep Forest)
- ☐ □□□□□□□□□□□ (Rubber plantation)
